

Cockpit Development Improving Processes and Ergonomics

**Innovative Vibration
Measurement Technology
for Brake Development**

**Vibration-optimized
Components for Chassis
Systems**

**An Optimized Transport
Concept for Tractor-
semitrailer Combination**

**Structure-born Sound
Transmission as an
Important Influence on
Crash Detection**

INTERVIEW

**»To Further Develop
the Electrical/Electronic
Infrastructure of the
Vehicle«**

**Dr.-Ing. Peter Rieth,
Continental**
