COVER STORY

Wind Noise Reduction at the Hyundai Genesis

4

Genesis is the first luxury premium sedan of Hyundai, designed to compete in the world market. Naturally, the car is to provide a high level of comfort. One of the aspects in achieving this goal is the reduction of underbody **Wind Noise**. The company used acoustic holography for locating noise sources in its anechoic wind tunnels.

COVER STORY

Aeroacoustics:

- 4 Hyundai Genesis – Wind Noise Reduction at the Underbody Using Acoustic Holography
